Motivated and passionate Full-Stack Web Developer with a strong foundation in frontend and backend technologies. Eager to explore advanced tools and frameworks including AI-integrated workflows. Dedicated to building real-world applications, mastering modern tech stacks, and adapting quickly in a fast-paced tech world. Backed by 3+ years of professional graphic design experience to bridge visual aesthetics and technical programming seamlessly.

PROFESSIONAL EXPERIENCE

Support Engineer (Web Development & Research) May 2025 – Present

Dr. Sujit Biswas's Team, City, University of London | Remote

- Developed and maintained responsive, accessible, and intuitive UI components using **React.js** and **Tailwind CSS** for educational platforms.
- Collaborated on backend API integration, data validation, and database operations using **Node.js**, **Express.js**, and **Firestore**.
- Translated business requirements and user behavioral research into technical interface mockups.
- Documented system structures, database models, and deployment workflows for developer onboarding.
- Maintained smooth cross-time-zone communication with global teams using Microsoft Teams.

Freelance Graphic Designer Jan 2023 – Present

Self-employed | Remote

- Successfully designed and delivered **50+ graphic design projects** for online brands.
- Created branding packages, vector logos, marketing posters, banners, and social media kits.
- Mastered digital layout software: **Figma**, **Adobe Photoshop**, and **Illustrator**.
- Leveraged design fundamentals (colors, spacing, visual hierarchies) to code superior web layouts.

HIGHLIGHTED PROJECTS

247School (Web-Based Learning Platform) 247school.org

A comprehensive online schooling application facilitating student enrollment, virtual classrooms, and academic timelines. Features secure role authorization and interactive dashboard states.

Tech: **ReactJS**, **TypeScript**, **Tailwind CSS**, **Firestore** (Auth/Firebase)

Affiliate Automation System Live Site

A full-stack campaign automation platform integrated with a Python auto-blogging backend. Automatically generates SEO-optimized reviews using Gemini AI, cloaks affiliate links, and captures detailed click statistics logs.

Tech: **Next.js**, **TypeScript**, **Python**, **Gemini AI**, **Tailwind CSS**, **Vercel**

IntervueAI (AI-Powered Mock Interviewer) Live Site | GitHub

A premium SaaS platform that analyzes uploaded PDF resumes, generates tailored coding and behavioral questions, conducts an interactive mock interview, and grades performance with real-time scoring using Google Gemini API.

Tech: **Next.js**, **TypeScript**, **Gemini API**, **Tailwind CSS**, **Supabase**

TECHNICAL SKILLS

Frontend

React.js, JavaScript, TypeScript, Tailwind CSS, GSAP, HTML5, CSS3, shadcn/ui

Backend & Databases

Node.js, Express.js, Firebase (Firestore, Cloud Functions), Supabase, MongoDB, REST APIs, SQL

Design & UI/UX

Figma, Adobe Photoshop, Illustrator, Visual Layout, Branding, Logos

Tools & Version Control

Git, GitHub, Chrome DevTools, VS Code, MS Teams, AI Workflows & Prompt Engineering

EDUCATION

Diploma in Engineering

Jessore Polytechnic Institute
Jan 2023 – Jan 2027 (7th Semester, CST)

SSC (Vocational)

Satkhira Govt. Technical School & College
Graduated: 2022 | GPA: 4.86 (Computer Trade)

CERTIFICATIONS

MERN Stack Development

Programming Hero (Complete Full Stack Bootcamp)

Hafeez of the Holy Quran

Full Quran memorization & Tajweed

AI Prompt Engineering

Hands-on AI workflows & LLM prompting
